## WORKING EQUITATION NEWBIE AND INTRO SESSIONS

The morning sessions will be limited to 6 riders each to offer a low stress environment for those riders completely new or with limited experience in Working Equitation. You will have an opportunity to expose your horse to several obstacles while getting instruction on how each should be ridden. Riders will be grouped according to experience and assigned a ride time based on information provided when registering.

## WORKING EQUITATION “INTRO AND NOVICE” SESSIONS

The afternoon session/s will provide an opportunity for participants to ride a complete “Ease of Handling” course and get feedback. Best for horses and riders who feel comfortable with most of the obstacles. This session will focus on the requirements of riding each obstacle to score well, choosing the best lines between obstacles and understanding how the requirements change as you move up the levels.

Riders will have an opportunity to ride the course as an “EoH Test” and a “Speed Test”
